

# VT47

## OBDII TPMS RESET & PROGRAMMING TOOL

The VT47 offers functionality and flexibility at an affordable price. Designed with dealerships in mind, its simple and easy-to-use interface guides the user when replacing and servicing TPMS sensors. With the addition of the OBDII Quick Connector, users can reset the ECU in less than 2 minutes. Live WiFi Updating allows the VT47 to always be up-to-date with new features and current vehicle and sensor coverage.
